

THE TRAVELING TEAM VIRTUAL MEETING FLOW

PRE MEETING:

- The Traveling Team will join the virtual meeting 45 minutes before the official meeting begins.
- We desire to meet with campus staff to connect and hear more about your ministry and how we can best serve you.
- During this pre-meeting we also desire to talk through the “meeting flow” and to set up “screen share” permissions.

MEETING FLOW:

- INTRO
 - The campus ministry staff will welcome everyone to the meeting, and share any needed announcements before the main message starts. (If you are unsure how to start a good virtual meeting we have seen many ministries start with fun questions, short games, or other icebreakers.)
 - Once The Traveling Team is introduced, we will give a short introduction laying out the flow of the evening.
- MAIN MESSAGE
 - The Word - “Biblical Basis of Missions” (15 - 20 minutes)
 - The World - The state of the world / 10/40 window (8 minutes)
 - The Work - Practical ways to “go” and “send” (10 minutes)
- OUTRO (Next Steps)
 - We will end our main message with some final next steps for continued growth.
 - During the outro, we will give students a time to respond along with the option to follow up with one of our staff for further, individualized resources.
 - Following the outro, we can offer Q&A and world prayer (see below).
- Q&A (Optional)
 - We offer the option to do Q&A.
 - We have found it best to offer 5 pre-planned questions that you can look over and choose 1 or 2 that you would serve your students. We can then circle back and answer any follow up questions to these questions.
- WORLD PRAYER (Optional)
 - For most meetings, it is fitting to end the official content with world prayer. We will pray for the Unreached People Group of the Day (Joshua Project).
 - We have seen world prayer be most successful when staff ask 2-3 students before the meeting starts to pray during this time.

POST MEETING:

- Campus staff can share any last thoughts or closing announcements
- With our experience on ZOOM, it works best if campus staff officially “end the meeting for all” after closing announcements. It can get awkward if people don’t know when to leave or what is next.
